

Aurora X1 Smartwatch — Product Guide

The Aurora X1 is a fitness-focused smartwatch released in March 2025 by Aurora Wearables. It retails for 249 US dollars and is available in three colors: Midnight Black, Arctic Silver, and Rose Gold.

Battery & Charging

The Aurora X1 offers up to 14 days of battery life on a single charge in standard mode, or about 5 days with the always-on display enabled. It charges fully in 90 minutes using the included magnetic charger.

Display & Build

It features a 1.4-inch AMOLED display with a resolution of 454 by 454 pixels. The casing is aerospace-grade aluminum, and the watch is water resistant up to 50 meters (5 ATM), making it suitable for swimming.

Sensors & Features

Built-in sensors include a heart-rate monitor, SpO2 (blood-oxygen) sensor, GPS, accelerometer, and skin-temperature sensor. It tracks over 120 workout modes and supports sleep-stage analysis.

Connectivity & Compatibility

The Aurora X1 connects via Bluetooth 5.3 and is compatible with Android 9.0 and above and iOS 14 and above. It has 4 GB of onboard storage for offline music.

Warranty

Every Aurora X1 comes with a 2-year limited warranty covering manufacturing defects. The warranty does not cover water damage beyond the rated 50-meter depth or accidental screen breakage.

Try asking: How long does the battery last? Is the Aurora X1 waterproof for swimming? What does the warranty cover? How much does it cost?
