

Lumen Analytics — 2025 Annual Report (Summary)

Lumen Analytics is a data-intelligence company based in Austin, Texas. This summary covers the fiscal year ending December 31, 2025.

Financial Highlights

Lumen Analytics reported annual revenue of 48.2 million US dollars in 2025, up 37 percent from 35.2 million dollars in 2024. Gross margin was 71 percent, and the company reached profitability for the first time, posting a net profit of 3.1 million dollars.

Customers & Growth

The company ended the year with 1,240 paying business customers, a net revenue retention of 118 percent. Its largest market segment is healthcare, which accounts for 42 percent of revenue.

Team

Lumen Analytics grew from 150 to 210 employees during 2025. The engineering team represents 45 percent of headcount. The company operates offices in Austin, Toronto, and Bengaluru.

Funding

In June 2025, Lumen Analytics closed a Series B funding round of 60 million dollars led by Northwind Ventures, bringing total funding raised to date to 92 million dollars.

Outlook for 2026

Management projects revenue between 68 and 72 million dollars for 2026 and plans to open a new office in London. The company aims to launch its AI-forecasting product in the second quarter of 2026.

Try asking: What was Lumen's 2025 revenue? How much did they raise in Series B? How many employees do they have? Which industry is their biggest segment?
